WALK THE BRIDGE

A public celebration will be held on Saturday, Dec. 5 in advance of the new downtown Louisville bridge opening to traffic.

Kentucky Governor Steve Beshear will participate in a ribbon-cutting and the public is invited to “Walk the Bridge.”

“Over the coming decades, hundreds of thousands of people and cars will cross the bridge, but we’re creating a once-in-a-lifetime opportunity before we open the bridge to traffic,” Beshear said. “Before the first car drives across this span, the public will have a chance to walk the new bridge. It’s an opportunity to be part of a historic celebration of an extraordinary project.”

According to a news release from the Ohio River Bridges Project, the celebration will have an open house format. The public will be invited to visit the deck of the new cable-stayed bridge from 10 a.m. to 2 p.m. on Dec. 5. Selfie stations will be posted across the bridge, giving the public a chance to capture the moment. People will be encouraged to post their pictures to social media using the hashtag #walkthebridge.

The 10,000 visitors will receive keepsake medallions.

Access to the Bridge

Public access to the bridge, by foot and by shuttle, will be from Jeffersonville. Parking will be available at Water Tower Square (300 Missouri Avenue) and Colston Park (301 Mulberry Street). Jeffersonville Police will be assisting with traffic control.

TARC buses and City of Jeffersonville trolleys will provide free shuttle service from Water Tower Square. Court Avenue will be closed to traffic from North Shore Drive to Ohio Avenue to facilitate pedestrian and shuttle transport.

The ramp from I-65 North to Court Avenue will be closed to provide access to the bridge. Shuttles and trolleys will drop passengers at the end of the ramp, with participants walking to the deck of the bridge.

After walking 1,000 feet up the ramp, participants will walk the approach to the bridge (also 1,000 feet) and have the opportunity to walk nearly the length of the bridge (2,100 feet), before returning to the Court Avenue ramp. A complete circuit will total more than 1 1/2 miles.

No pets, bicycles, skateboards or rollerblades will be allowed on the bridge. Limited parking for bikes is available in a number of locations in Jeffersonville.

INDEPENDENT AUDITOR’S REPORT

The Honorable Mayor and Council
of the City of Pewee Valley, Kentucky

Report on the Financial Statements

I have audited the accompanying financial statements of the governmental activities, and aggregate fund information of the City of Pewee Valley, Kentucky, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the City of Pewee Valley, Kentucky’s basic financial statement listed in the table of contents.

Management’s Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

My responsibility is to express opinions on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statement are free from material misstatement.

An audit involves performing procedure to obtain audit evidence about the amounts and disclosures in the financial statements. The procedure selected depends on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and fair presentations of the financial statements in order to design audit procedures that are appropriate in the
circumstances; but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the evidence I obtained is sufficient and appropriate to provide basis for my audit opinion.

Opinions
In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and aggregate fund information of the City of Pewee Valley, Kentucky as of June 30, 2015; and the respective changes in financial position for the year ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters
Accounting principles generally accepted in the United States of America require that management’s discussion and analysis and budgetary comparison information on pages 3-7 and 24, 25 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by Governmental Accounting Standards Board; who considers it to be an essential part of financial statements in an appropriate operational, economic, or historical context I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries; the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide assurance.

Other Supplementary Information
The Combining Balance Sheet-Non-Major Governmental Funds and the Combining Statement of Revenues, Expenditures and Changes in Fund Balances-Non-Major Funds on pages 26 and 27 are presented for additional analysis and are not required parts of the basic financial statements. These combining financial statements have been subject to the auditing procedure applied in the audit of the basic financial statements and, in my opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Reporting Required by Governmental Auditing Standards
In accordance with Governmental Auditing Standards, I have also issued my report dated September 25, 2015, on my consideration of City of Pewee Valley’s internal control over financial reporting and on tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Governmental Auditing Standards in considering City of Pewee Valley’s internal control over financial reporting and compliance.
